

# Eamon Byrne Consulting LLC

## Capability Statement

**Helping science & technology innovators  
secure funding and translate discoveries into impact.**

### Eamon Byrne, PhD. – Biotech Strategy Consultant

#### Core Capabilities

- **Grant Strategy & Proposal Development** – SBIR/STTR, state innovation grants, foundations
- **Research Planning** – Milestone-driven plans aligned with funder expectations
- **Science Communication** – Clear, compelling, review-ready narratives
- **Commercialization & Regulatory Strategy** – Investor readiness & translational roadmaps

#### Scientific Expertise

- Translational Biotech
- Protein Engineering
- Gene Therapy
- Cell-Based Therapeutics
- Therapeutic Delivery Methods
- Preclinical Studies

#### Value Proposition

I combine **deep technical expertise** with **strategic insight** to help innovators secure non-dilutive funding and accelerate commercialization. My clients benefit from a unique mix of:

- Rigorous scientific training at **Oxford (PhD)** and **Stanford (postdoctoral)**
- Startup experience in **San Francisco's biotech ecosystem**
- Cross-sector perspective spanning academia, startups, and industry

#### Who I Support

- Early-stage startups
- Academic researchers & faculty
- Tech transfer offices
- Research consortia and translational initiatives
